PAINTER'S HOUSE AWARD 2019

ARTISTIC STAYS FOR THE ACADEMY OF FINE ARTS' STUDENTS

Dear Director

The municipality of Monteleone di Fermo has already started some years ago the "Painter's House" project, giving a house in the Old Town to welcome in the summer period some young artists who wants to experiment the evocative force of the southern Marche's landscape.

Monteleone is one of the many hamlets of medieval origin that dot Fermo's territory, full of history and art, in which nature and man's millennia action are harmonically integrated. The look sweeps to the hilly landscape, to the Adriatic sea and the Sibillini mountains, a hardworking and suggestive land that has commissioned, inspired and kept in the

centuries artworks of great value, from the precious crivelli polyptychs to Osvaldo Licini's daring and fantastic creations.

The main goal is to make new generations know those fascinating places, and also projecting artistic vocation into the contemporary world.

The stay, free in food and accomodation, would keep only two artists at a time, favoring a comparison and an exchange on the cultural and creative plan. In the previous editions also young Italian artists have stayed at the Painter's House, and also people from other countries, like English, US, Chinese and Iranians.

The candidacies will be screened and selected by the scientific committee that at the end of the stay will choose, between all the artworks produced, the one who will win the prize.

To know all the terms and conditions of participation, please take note of the enclosed complete announcement. Candidacies, enclosed with the required documentation, must be received within 60 days from the publication of the announcement on the municipality's website: <http://monteleonedifermo.eu/> (Expires in the 15th of June 2019).

Trusting in Your kind collaboration, We thank you cordially.
